About me

MERN stack developer with hands-on experience building scalable web applications and RESTful APIs. Developed multiple full-stack projects, including an AI-powered emotional music player and a highly interactive macOS-style portfolio. Passionate about writing clean code, integrating real-time data APIs, and solving complex computational problems. Seeking opportunities to contribute to innovative web development projects.

Technical Skills

Languages : JavaScript (ES6+)

Frontend : React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Context API, Redux Toolkit

Backend : Node.js, Express.js, REST APIs, JWT, OAuth, GenAI APIs

Database : MongoDB, Mongoose, Aggregation, Indexing, localStorage

Tools : Git, GitHub, Postman, Vercel

Projects

macOS-Style Personal Portfolio

[Live Preview]

- Built a highly interactive, responsive portfolio website mimicking a macOS desktop environment using React and Vite.
- Implemented complex state management to handle draggable, resizable window components and functional dock interactions.
- Developed an authentic Spotlight-style search overlay and custom CSS glassmorphism effects for a premium user experience.

Moodify: AI Emotion-Based Music Player

[Live Preview]

- Developed a MERN stack application utilizing MediaPipe computer vision to analyze real-time facial expressions and detect user emotions.
- Engineered an AI-driven matching algorithm to filter and curate contextual songs from the library based on the user's detected mood.
- Built a secure JWT-based authentication system alongside a customized music player UI featuring dynamic emotional aura responsiveness.

ZenTask Productivity Dashboard

[Live Preview]

- Developed a comprehensive productivity dashboard integrating a customizable Pomodoro timer, dynamic daily planner, and task management system using HTML, CSS, and JavaScript.
- Implemented a robust CSS variable architecture to support over 20 dynamic themes and integrated external APIs to render real-time weather conditions and motivational quotes.
- Engineered persistent local storage solutions to automatically save user tasks and schedules, delivering a seamless and responsive user experience without backend dependencies.

Education

Integral University, Lucknow

Bachelor of Computer Application (B.C.A.)

Graduated: May 2025

CGPA: 9.8 / 10.0

Certifications

Introduction to Generative AI

Google Cloud (via Simplilearn) · Issued Dec 2024
